NEW SOLVENT BASED ANTI-SPATTER NOW AVAILABLE

Cantesco introduces a nonflammable anti-spatter

Addition completes Cantesco's solvent and water based anti-spatter product offering

Cantesco Corporation, Welding Products Division, introduces its new solvent based [AS-16-A](#) welding anti-spatter.

Formulated to meet tough welding standards, Cantesco AS-16-A is a nonflammable,

HOW TO REACH US

In the US: (716) 693-8206 ph
(716) 693-8373 fax
In Canada: (905) 624-5463 ph
(905) 624-2840 fax

solvent based anti-spatter, which quickly evaporates to provide an effective surface coating.

By preventing spatter build up in welding applications Cantesco AS-16-A eliminates the need to grind or brush the surface after welding, saving time and money in the weld process.

AS-16-A is labelled in English, French and Spanish and Material safety Data Sheets to OSHA and WHMIS requirements are available.

Cantesco now offers a complete line of anti-spatters including 16 oz and 20 oz heavy duty solvent based anti-spatters; a 16 oz water based aerosol; a concentrated water based anti-spatter which can be

diluted to suit specific welding applications and a ready to use surfactant and water based anti-spatter both of which are exempt from health and safety reporting requirements.

CANTESCO® products are available through distributors and wholesalers located across North America and around the world including Australia, the Middle East, Europe, Mexico, the Philippines and Latin America.
