(716) 693-8373 fax
In Canada: (905) 624-5463 ph
(905) 624-2840 fax

GALV™ BRILLIANT ZINC RICH SPRAY provides superior zinc protection on welds, galvanized steel, base iron and other ferrous surfaces exposed to harsh and corrosive environments. AG-16-A is a quick drying, high solids, zinc rich formulation that does not contain any oxide fillers.

This BRILLIANT ZINC RICH SPRAY contains highly active pure zinc particles that fight against rust and corrosion creepage by providing a flexible, galvanic self-healing zinc film.

AG-16-A is labelled in English, French and Spanish and Material Safety Data Sheets to OSHA and WHMIS requirements are available.

Cantesco offers a complete line of welding chemical products including oxygen compatible

leak detectors, zinc rich spray galvs, dye penetrants, anti-spatters, nozzle tip dip, wire lube pads, cooling fluids, stainless steel pickling paste and aluminum cleaner.

CANTESCO® products are available through distributors and wholesalers located across North America and around the world including Australia, the Middle East, Europe, Mexico, the Philippines and Latin America.
