(716) 693-8373 fax
In Canada: (905) 624-5463 ph
(905) 624-2840 fax

WWW.CANTESCO.COM

that has manufacturing and warehousing in both the United States and Canada and, as an ISO 9001:2000 registered company, is one of the few with a proven ability to provide an independently verified quality system.

Starting with less than 1000 sq ft of total space in 1982, Cantesco now occupies over 15,000 square feet of production, warehouse and office space in the US and Canada.

Production capabilities include digital weigh scales for blending, electronically controlled filling machines, high speed automated labeling and ink jet coding machines and digital weigh check equipment.

From modest beginnings we now serve a wide range of industries including aerospace,

healthcare, chemical, refining, mining, gas production, metal fabrication and general industrial applications.

CANTESCO® products are available through wholesalers and distributors located across North America, Mexico, South America, Europe and the Middle East.

For product literature, samples or a copy of our PRODUCT SPECIFIC CATALOG visit us on the web or email us at sales@cantesco.com.
