## TECHNICAL INFORMATION - TYPICAL ANALYSIS

**PRODUCT:** CANTESCO® PREMIUM ANTI-SPATTER - CONCENTRATE

**APPLICATION:** Premium quality anti-spatter compound that provides a thin, uniform protective coating on MIG nozzles, tips, fixtures and materials during weld process. Prevents spatter build up in welding applications on all types of materials including steel, stainless steel and aluminum.

High solids content ensures an effective protective coating is placed over surface area. In bulk form CANTESCO® PREMIUM ANTI-SPATTER - CONCENTRATE can be diluted with water starting with a one-to-one ratio. Designed to weld through while wet, our high solids formula ensures an effective protective coating is placed on the surface area, unlike low solids "safe" anti-spatters.

**COMPOSITION:** A stable emulsion mixture, free from suspended matter and sediment, CANTESCO® PREMIUM ANTI-SPATTER is a water based product with a neutral pH and contains a rust inhibitor. Does not contain chlorinated solvents or silicone materials, eliminates concerns regarding hazardous decomposition of chlorinated solvents (resulting in toxic fumes of phosgene gas) that are created when using traditional chlorinated solvent based anti-spatter products.

**TOXICITY:** Non-toxic, exempt from OSHA requirements for hazardous chemical materials (aerosol can is a pressurized cylinder, in bulk form product is non-flammable). It does not contain any materials that are considered to be carcinogens, mutagens or teratogens. No odor or solvent smell, eliminates nausea and headaches associated with use of chlorinated solvents.

PLEASE NOTE: Product use and conditions of use are beyond the control of CANTESCO CORPORATION. Warranty of materials is limited to test results of product performance as detailed in certificates of compliance. Interpretation of test results are the responsibility of the end-user. No other warranties, expressed or implied, are made.

### TECHNICAL INFORMATION - TYPICAL ANALYSIS

**PACKAGING:** Ready to use format available in 16 oz aerosol cans (no ozone depleting propellants are used), 16 oz non-aerosol pumps, 16 oz non-aerosol triggers, 1 gallon, 5 gallon and 55 gallon drums.

ITEM	CODE	SIZE	QUANTITY PER UNIT
ES-16-A	10245	16 oz aerosol can	12 cans per box
ES-16-P	10250	16 oz non-aerosol pump	12 bottles per box
ES-16-T	10255	16 oz non-aerosol trigger	12 bottles per box
ES-1G	10260	1 gallon jug	4 jugs per box
ES-5G	10265	5 gallon pail	per pail
ES-DR	10270	55 gallon drum	per drum

**MSDS:** An msds is available for this product upon request. To receive a copy e-mail us at [msds@cantesco.com](mailto:msds@cantesco.com) and request MSDS ES-16-A AEROSOL and/or MSDS PREMIUM ANTI-SPATTER for bulk product.

**Q&A:** For answers on how to use CANTESCO® PREMIUM ANTI-SPATTER ask for a copy of our booklet "THE NEXT GENERATION: QUESTIONS & ANSWERS ABOUT CANTESCO® PREMIUM ANTI-SPATTER IN WELDING APPLICATIONS. For a complete product listing request a copy of our WELDING PRODUCTS CATALOG. For further information visit us at [www.cantesco.com](http://www.cantesco.com).
